

Song at the EHRS meeting in Durham 2010

Melody: For he's a jolly good fellow

We gather again for a meeting
In beautiful city of Durham
Histamine topics and everything
And Paul invited all
Exciting Durham call
With the Cathedral tall
It started already with workshop
Methods and Histamine training
Then Schwartz Public Lecture it was the top
And so was all with COST

Exciting GB West Lecture
And Jean-Charles Schwartz was returning
The master of H3 receptor
And Histamine in brain
And much about the pain
We did not come in vain
Plenary Lectures were stunning
Northumbria Pipes entertaining
And up and down we were running
And we learned quite a lot

To Beamish we had our excursion
And finished in medieval Castle
And there with historic diversion
We found it very nice
Some took both once and twice
Like getting the first prize
In final for our Young Researchers
Was Christel, Natasha and Saara
Orexins and H3 receptors
They all were excellent!

This Histamine meeting was great Fest
With science and culture and music
Paul and his crew they have done the best
And so we all must say
That we liked the stay
Until next year in May
To Paul and his family we cheer
And Thanks - for a wonderful meeting
To 40th meeting we come next year
To Sochi by the See.
